

High Efficiency 8W LED Down Light

EDL-1908W-XK

REV : A/0

1.Introduction

EDL-1908W is designed for the indoor lighting. It is efficient, energy-saving and environment-friendly. The oxygenized body, made of the aluminum alloy, makes its outlook outstanding, beautiful, and novel. The elaborately designed heat-sinking can spread the heat generated by the LED efficiently and rapidly, and ensures the lifetime of the lamp.

2.Application

Indoor lighting

3.Characteristic

1, Legality: Use the legal LED

2, Safe: The temperature of the tube is under 60°C

No UV

No Pb ,no poison; RoHS

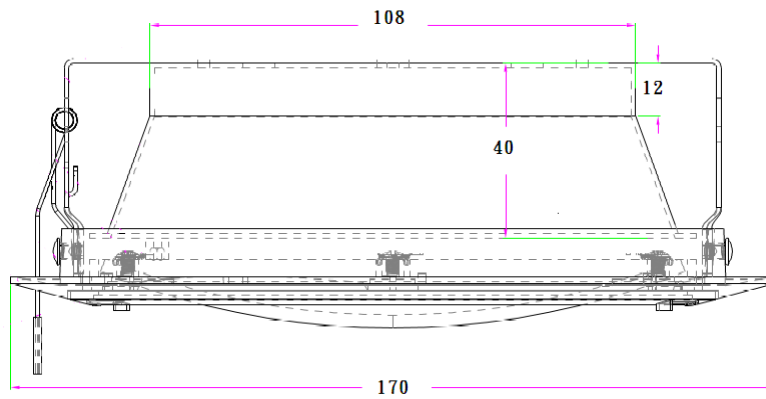

3, Environmental Protection:

Resources recover as much as 95%

4, Energy-saving: Power saving

Special design of power supply, the efficient of the power supply is high at 75~85%(CE,UL,cUL,RoHS)

5, Special: LED optics design, light color is soft, not dizzy or glare, scenery is more solid

6. Electrical performance

Item	Spec	Unit	Note
Input voltage	AC100 ~ 240	V	
Power frequency	50 ~ 60	Hz	
Output voltage	DC 24	V	
Limiting non-isolated source	DC 360	mA	
Output power	Typ 8.6	W	
Total luminous flux	Typ 700	lm	
Color Temperature	3000 4000 6500	K	
View angle	140	deg	
Gross weight	Around 500	g	
Ingress protection	IP22
